**Commissioner for Patents**

The Information Disclosure Statements filed October 1, 2001 and July 14, 2003 has been considered in a cumulative manner. 37 CFR 1.56(b), which states that: "...information is material to patentability when it is not cumulative to information already of record or being made of record in the application." Applicant has cited almost three hundred references for consideration. The Examiner believes that this enormous amount of references for consideration is largely cumulative and, therefore, based upon the large number of cited references cited, the initialed references have been considered in a cumulative manner.

An initialed copy of the 16 pages of the 1449s are attached.
